PROFILE

Self-taught, dedicated, and highly motivated Software Developer with 10+ years of experience. Specialized in Frontend development with a strong focus on Web accessibility and performance, I am passionate about crafting intuitive and highly performant user interfaces.

EXPERIENCE

Freelance, remote - *Frontend Developer*

MAR 2024 - CURRENT

- Developed and optimized accessible user interfaces using React and Vue, improving user experience across various client projects.
- Supported the implementation of new developer features, contributing to streamlined workflows and enhanced project capabilities
- Identified and resolved critical technical debts, leading to improved code maintainability and application stability.

Shogun, remote - *Frontend Developer*

MAY 2020 - AUG 2022

- Developed highly responsive and performant UI using React and Vue for e-commerce storefronts, enhancing user engagement for Shogun's clients.
- Provided comprehensive technical insights and support for Shogun's clients, resolving complex issues and ensuring seamless platform integration.
- Actively participated in the hiring process, conducting candidate interviews and contributing to the successful onboarding of new Frontend talent.
- Authored clear and concise documentation for the "Shogun Frontend" product, improving developer onboarding and product understanding.

Magnetis Investimentos, São Paulo - remote - *Frontend Developer*

MAY 2019 - MAY 2020

- Collaborated with the Design System team on Magnetis' Design Systems, ensuring consistency and reusability across platforms.
- Developed key features for Magnetis' mobile application using React Native, directly contributing to enhanced user functionality.
- Significantly improved website and mobile app accessibility, adhering to industry best practices and expanding user reach.

HelloFresh SE, Berlin - *Frontend Developer*

MAY 2017 - NOV 2018

- Led the migration of the HelloFresh platform from Angular to React, resulting in a more modern and scalable codebase.
- Enhanced HelloFresh's website accessibility, contributing to a more inclusive user experience.
- Created internal tools and reusable components, boosting developer efficiency and accelerating feature development.
- Co-created the HelloFresh Design System, establishing consistent UI/UX patterns across the company.

Garage Born, São Paulo - remote - *Frontend Developer*

AUGUST 2016 - APRIL 2017

- Developed "Matters," a news aggregator app for iOS and Android using React Native, achieving cross-platform compatibility.
- Created the release and deployment strategy for mobile apps using Fastlane, streamlining the distribution process.
- Implemented robust web interfaces using ReactJS, ensuring high performance and user responsiveness.

Comida da Gente, Rio de Janeiro - remote - *Frontend Developer*

NOVEMBER 2015 - JUNE 2016

- Created user interfaces using ReactJS, contributing to the application's visual appeal and functionality.
- Improved the frontend application build system using Webpack, enhancing development efficiency and performance.
- Improved CSS scalability using CSS Modules and PostCSS, leading to more maintainable and modular stylesheets.

Milagro, Jaraguá do Sul - SC - *Web Developer*

SEPTEMBER 2012 - MAY 2014

- Responsible for maintaining websites' performance, ensuring optimal user experience.
- Taught the frontend team how to use modern workflows, elevating team capabilities and development practices.
- Implemented e-commerce UI in the Magento platform, contributing to online store functionality and design.

EDUCATION

Unisinos - BSc. *Information Systems, Expected Completion 2026*

(Continuation of studies from Centro Universitário Católica de SC, 2012-2015)

Coursework: Algorithms, Discrete Mathematics, Data Structure, Programming, Database, Software Engineering, Project Management.

PROJECTS

Kakimono - <https://kakimono.app>

- Kakimono is a browser-based Markdown app for Japanese learners, with furigana support.
